Q: Clinical Affairs
R: Dean’s Office
X: Finance & Admin

Your personal network folder

Files stored here can be viewed, edited, or deleted by all HWCOM employees.

A web-based collaboration platform

STORAGE & BACKING UP

STORAGE

- Departments are provided departmental drives in which all employees within that department may use to share documents.

- Employees are provided their own personal Home "H" drives that only they have access to.

- The Shared Drive is available to all HWCOM employees and is not meant for documents containing sensitive information such has Protected Health Information (PHI) or student information such as Family Educational Rights and Privacy Act (FERPA).

- SharePoint is a web-based collaboration platform which offers a multitude of productivity features such customized forms development with automatic workflows, task tracking, calendar, and more.

SECURE STORAGE

To store sensitive documents such as PHI or FERPA information, HWCOM employees must submit a request with HWCOM IT. HWCOM IT will create a document storage location with the necessary safeguards. PHI must only be stored in the authorized locations, applications or information systems.

BACKING UP

Documents stored on the employees’ computer hard drive (e.g. Desktop and Documents folders) are not backed up. Employees must save their documents to the network drives or SharePoint sites.

For any questions or access to these available resources, please contact HWCOM IT Help Desk and submit a request.
SUBMITTING A REQUEST
